The family, which is the basic unit of civilization, is now disintegrating. Islam's family system brings the rights of the husband, wife, children, and relatives into a fine equilibrium. It nourishes unselfish behavior, generosity, and love in the framework of a well-organized family system. The peace and security offered by a stable family unit is greatly valued, and it is seen as essential for the spiritual growth of its members. A harmonious social order is created by the existence of extended families and by treasuring children.
